

Parasol with shade in fabric, available in two versions, with flat or dome-shaped sunshade.

The sunshade of both versions can be fixed (codes CA09A and CA09C) or can be bent in the desired position thanks to a varnished aluminium hinge (codes CA09B and CA09D).

Structure: aluminium, matt varnished in the colours in the collection.

Supporting rods: fiberglass matt varnished in colour matching the structure.

Ballast: cast iron matt varnished in colour matching the structure.

Sunshade: in Madras or Tamil fabric.

Notes:

Bistrò can stand free, but we recommend, whether it is possible, to anchor it to the ground; in both cases it is necessary to use the supplied moulded cast iron ballast.

Bistrò can be completed with the seating elements and side tables of Clique series.

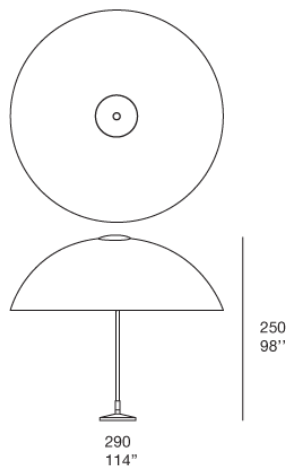

We advise to use a Winter Set protection cover.

Awards:

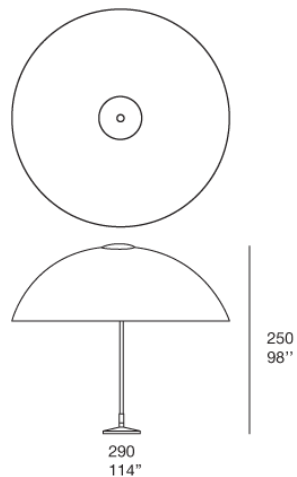

Bistrò won the GOOD DESIGN AWARD 2015 in the Lifestyle category and the INTERIOR INNOVATION AWARD 2015 from German Design Council in cooperation with Imm Cologne.

Bistrò has been selected for the ADI DESIGN INDEX 2015.
