Cleaning & Maintenance

Aluminium

Clean with non-corrosive, non-abrasive cleaners to ensure the logevity and pristine appearance of aluminium surfaces. Avoid the use of scrubs pads or pressure cleaners, as these may cause damage.

Fabric

Clean with mild soap using a sponge or cloth. Be gentle during the cleaning process; avoid aggressive scrubbing of the seater. After cleaning, ensure you remove any excess soap.

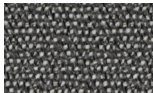

For stubborn stains, use diluted household bleach. Act promptly to clean stains; the longer they linger, the more challenging they become to remove.
