VELOUR SOFA PLUS 260

A12125-1

Velour is a seating range featuring generous, soft and inviting shapes. The curved shell which shapes the back and arms is in bent wood and can be upholstered in leather or fabric. The fabric details, such as the piping which enhances the curved outline of the seats or the double and single seams framing the shapes, underline the strongly crafted and sophisticated workmanship involved in the details.

Velour è un sistema di sedute caratterizzato da forme generose, morbide ed accoglienti. La scocca curva, che definisce lo schienale e i braccioli, è realizzata in legno curvato e può essere rivestita in cuoio o tessuto. I dettagli tessili - come il piping che esalta il profilo curvo delle sedute oppure le cuciture doppie e singole che incorniciano le forme - sottolineano la fattura altamente artigianale e ricercata dei dettagli.

Velour est un système d'assises caractérisé par des formes généreuses, souples et accueillantes. La coque arrondie qui délimite le dossier et les accoudoirs, est réalisée en bois courbé et peut être revêtue en cuir ou en tissu. Les détails textiles – comme le passepoil qui accentue le profil bombé des assises ou les coutures, doubles ou simples, qui encadrent les formes – soulignent la facture résolument artisanale et recherchée des détails.
