

PerfectCombination / CementoWabi / GeoTexture

HDsurface è azienda leader nella realizzazione di superfici in soluzione continua con pasta di cemento e resina, per interni ed esterni di prestigio. Fondata nel 1982, cura oggi progetti in Italia e nel mondo, in ambito pubblico e privato. Partendo dallo studio dei materiali e dalla ricerca di nuove possibilità nell'ambito di rivestimenti innovativi e a basso impatto ambientale, HDsurface è cresciuta negli anni proponendo al mercato applicazioni all'avanguardia. L'evoluzione aziendale ha portato alla formazione di un team altamente specializzato, capace di studiare e brevettare diverse tipologie di prodotti e molteplici combinazioni di materiali. L'unione di cemento e resine di ultima generazione si contraddistingue per durevolezza, elasticità, versatilità, estetica, design, semplicità e rapidità d'esecuzione. L'essenza della materia dà identità agli spazi. Legno, metallo, plastica, cemento, ceramica, tessuto, materiali naturali e sintetici, possono essere rivestiti con le nostre miscele di prodotto dalle texture emozionanti, oppure dialogare con esse, creando ambienti confortevoli e accoglienti con una spiccata personalità. Numerosi architetti italiani e internazionali hanno scelto e scelgono i rivestimenti HDsurface per la realizzazione di grandi opere private, abitazioni, edifici pubblici, showroom, strutture alberghiere, spa e uffici.

HDsurface is a leading manufacturer of continuous surface solutions in resin and cement screeds for indoor and outdoor use. Founded in 1982, the company manages public and private projects in Italy and worldwide. Starting from in-depth research into materials and the development of new possibilities in innovative coverings with low environmental impact, HDsurface has grown over the years by offering the market state-of-the-art applications. As the company has expanded, a highly specialised team has developed, able to create and patent many different types of products and numerous combinations of materials. Joining the latest-generation resins and cements has made available outstandingly durable, elastic, versatile, attractive, stylish surfaces, which are extremely fast and easy to install. The essence of the materials gives spaces their identity. Wood, metal, plastic, concrete, ceramics, fabric, natural and synthetic materials, can be covered with our product blends to provide fascinating textures, or ones that communicate with one another to create comfortable, welcoming interiors with distinct personalities. Many many Italian and international architects continue to choose HDsurface coverings for large private projects, homes, public buildings, showrooms, hotels, spas and offices.

PerfectCombination

IT La nuova realtà sinergica fra il cemento e la resina: un rivestimento costituito da malta colorata a base acqua. **PerfectCombination** consente massima versatilità progettuale ed è ideale per rivestire superfici continue di interni (come pavimenti e pareti), di spazi pubblici e privati di grande dimensione e traffico. È inoltre studiato per essere applicato in ambienti bagno per la realizzazione di vasche e impianti doccia. L'immagine che offre, una volta applicato, è quella tipica del cemento spalmato.

DE Der neue Synergieeffekt von Zement und Harz: eine Beschichtung aus farbigem Mörtel auf Wasserbasis. **PerfectCombination** ermöglicht beim Projektieren höchste Flexibilität und ist ideal für die Beschichtung nahtloser Oberflächen im Innenbereich (auf Böden und Wänden) sowie in öffentlichen und privaten Räumen mit großen Flächen und hoher Beanspruchung. Es wurde auch für den Einsatz in Bädern zum Einbau von Badewannen und Duschen entwickelt. Nach der Anwendung zeigt sich das typische Erscheinungsbild einer Zementbeschichtung.

ENG It's a new synergy between cement and resin: a covering made of coloured mortar based on water. **PerfectCombination** is extremely versatile for any project and is ideal for covering continuous indoor surfaces (such as floors and walls) of large and trafficked public and private spaces. It's also used in bathrooms for baths and showers. The look is, once applied, typical of cement that has been spreaded.

FR C'est la nouvelle réalité synergique entre le ciment et la résine: un revêtement composé de mortier coloré à base aqueuse. **PerfectCombination** offre une très grande liberté de conception et est idéal pour le revêtement des surfaces internes continues (comme sols et murs), ainsi que des espaces publics et privés de grandes dimensions et à forte circulation. Il est également étudié pour les salles de bains et la réalisation de baignoires et de systèmes de douche. Après l'application, il offre l'aspect caractéristique du ciment étalé.

NL **PerfectCombination** is de symbiose tussen het cement en het hars: het is een bekleding bestaande uit vijzel op basis van water. Hij laat een groot vrijheid van implementatie toe. Hij is ideaal om de muren en/of de bodems van grote openbare en particuliere ruimtes te bedekken. Hij kan eveneens in de badkamers, op badkuipen en douches van toepassing zijn. Het beëindigde aspect is die van het uitgespreide cement.

SL Je nova sinergija med cementom in smolo: premaz narejen iz barvane malte na vodni osnovi. **PerfectCombination** je izjemno vsestranski premaz za katerikoli projekt in je idealen za pokrivanje neprekinjenih površin (kot so tla in stene) v zasebnih in javnih prostorih z večjo površino in večjo obremenitvijo. Uporablja se tudi v kopalnicah za izdelavo kopalnih in tuš kadi. Izgled, ko je premaz nanešen, spominja na izgled razlitega betona.

ES La nueva realidad sinérgica entre el cemento y la resina: un revestimiento formado por mortero de color de base acuosa. **PerfectCombination** asegura a cada proyecto la máxima versatilidad y es ideal para revestir superficies continuas de interiores (como suelos y paredes), de espacios públicos y privados de gran tamaño y tráfico. También está diseñado para aplicarse en ambientes de baño para la realización de bañeras e instalaciones de ducha. La imagen que ofrece una vez aplicado es la típica del cemento extendido.

ESTETICA

Una superficie dall'effetto nuvolato, caratterizzata da mutevoli giochi di chiaroscuro che rievocano l'intensità materica del cemento ma con uno stile minimal per progetti di interior dal linguaggio sofisticato e contemporaneo.

APPEARANCE

A surface with a clouded effect, featuring ever-changing chiaroscuro interplays that evoke all the tactile intensity of cement, but with a minimal style, for interior designs in a sophisticated contemporary language.

COMPOSIZIONE

Malta bicomponente epossì-cementizia a base d' acqua.

COMPOSITION

Dual-component epoxy-cement mortar water-based.

CementoWabi

IT Il CementoWabi, composto da cemento, marmo di carrara bianco e pigmenti naturali che ne compongono le trentasei colorazioni in stile HDsurface, esprime gli ideali della teoria estetica giapponese wabi-sabi. È un materiale unico, un elemento vivo che si evolve nel tempo e dialoga con l'uomo e con lo spazio. Ideale per il rivestimento di superfici verticali e orizzontali materiche, è un prodotto di facile utilizzo, applicabile anche da non professionisti del settore.

DE CementoWabi ist eine Verbindung aus Zement, weißem Carrara-Marmor und natürlichen Pigmenten, aus welchen sich die sechsunddreißig Farbtöne im HDsurface-Stil zusammensetzen, und bringt die Konzepte der japanischen Ästhetik Wabi-Sabi zum Ausdruck. Es handelt sich um ein einzigartiges Material, ein lebendiges Element, das sich im Lauf der Zeit entwickelt hat und mit Mensch und Raum interagiert. Ideal zur Beschichtung von senkrechten und waagerechten Oberflächen, einfach in der Anwendung, auch für Laien.

ENG CementoWabi, consisting of cement, white Carrara marble and the natural pigments that create its thirty-six HDsurface-style colours, expresses the ideals of the Japanese wabi-sabi theory of aesthetics. It is a unique material, a living element that evolves over time and dialogues with people and space. Ideal for covering vertical and horizontal material surfaces, it is an easy-use product which can also be applied by those who are not professionals.

FR CementoWabi, est composé de ciment, de marbre blanc de Carrare et de pigments naturels. Il est disponible en 36 teintes. Il illustre les idéaux de la théorie esthétique japonaise Wabi-Sabi. C'est un produit unique, vivant, qui évolue dans le temps et dialogue avec l'homme et l'espace. Idéal sur des surfaces verticales et horizontales, il est facile d'application et peut être utilisé par des non-professionnels.

NL De CementoWabi, wittemarme Carrara en natuurlijke elementen. Het bestaat uit 36 kleuren die de Japanse esthetiek weergegeven. Het is een levendig uniek product dat evolueert met tijdenomgeving. Het is ideaal product dat zowel horizontaal als verticaal kan worden gebruikt. Het is makkelijk te gebruiken ook voor niet professionelen.

SL CementoWabi, je zmes cementa, belega Carrarskega marmorja in naravnih pigmentov, ki nam omogočajo paleta šestintridesetih barv v stilu HDsurface in izraža ideale Japonske estetske teorije wabi-sabi, ki išče lepoto v nepopolnosti in nestalnosti. Je edinstven material, živ element, ki se razvija skozi čas in komunicira tako z prostorom kakor z osebami v njem. Idealen je za navpične površine in je enostaven za uporabo.

ES El CementoWabi, formado por cemento, mármol de Carrara blanco y pigmentos naturales que componen sus treinta y seis tonalidades en estilo HDsurface, expresa los ideales de la teoría estética japonesa "wabi-sabi". Es un material único, un elemento vivo que evoluciona con el tiempo y dialoga con el ser humano y con el espacio. Ideal para el revestimiento de superficies verticales y horizontales matéricas, es un producto fácil de usar, que puede ser aplicado incluso por no profesionales del sector.

ESTETICA

Un rivestimento decorativo dall'effetto spatolato e vibrante che definisce gli spazi attraverso la forza espressiva del cemento. Disponibile in due texture: Medio, che valorizza l'aspetto più vivo e grezzo del cemento, e Fino, dall'aspetto più compatto. Spessore massimo 2-3 mm.

APPEARANCE

A decorative covering with a vibrant, trowelled effect that defines spaces through the expressive force of cement. Available in two textures: Medio, which evokes cement at its most vibrant, and Fino, with a more compact look. Maximum thickness 2-3 mm.

COMPOSIZIONE

Malta composta da cemento micronizzato colorato con ossidi e terre naturali, finissimi granulati di marmo di Carrara e fibre di cellulosa, il tutto additivato da specifico legante a base acqua.

COMPOSITION

Mortar consisting of micronized cement coloured with natural earths and oxides, very fine Carrara marble granules and cellulose fibres, completed by a specific water-based binder.

GeoTexture

Hotel Villa Giulia - Brescia
GeoTexture

IT GeoTexture è il primo rivestimento monolitico pronto all'uso, facile da utilizzare per vestire pareti, pavimenti, oggetti, ma anche ambienti bagno in spazi privati e pubblici. Una malta facile che non richiede miscele né catalisi per essere applicata, un prodotto pronto all'uso che apre nuove possibilità nel rivestimento di superficie fai da te per professionisti del settore. **GeoTexture** è facile, rapida, sicura ed ecocompatibile.

DE GEOtexture ist die erste einfach anzuwendende monolithische Fertigbeschichtung, bestens geeignet um Wände, Böden, diverse Objekte sowie Badezimmer in privaten und öffentlichen Räumen zu behandeln. Das Produkt ist sofort gebrauchsfertig und bietet allen Profis eine neue Möglichkeit der Oberflächenbeschichtung, ganz ohne technische Vorkenntnisse. **GEOtexture** ist einfach, schnell, sicher und umweltfreundlich!

ENG GeoTexture is the first ready and easy to use monolithic coating to cover walls, floors, objects, as well as bathrooms in private and public spaces. An easy mortar that does not require catalysis or mixtures to be applied, a ready to use product that opens new possibilities in do it yourself surface coating for professionals (no specific technical skills required). **GeoTexture** is easy, fast, safe and environmentally friendly.

FR Premier revêtement monolithique prêt à l'usage, **GeoTexture** permet de revêtir facilement murs, sols, objets, salles de bains des bâtiments privés et publics. Un mortier facile à utiliser et dont l'application n'exige ni mélange ni catalyse, un produit prêt à l'usage qui ouvre de nouvelles perspectives au revêtement de surface à l'attention des amateurs comme des professionnels du secteur. **GeoTexture** est simple, rapide, sûr et éco-compatible.

NL GeoTexture is de eerste klaar voor gebruik monolithique bekleding. Hij wordt gebruikt om muren, bodems en voorwerpen te bedekken, hij mag ook in de badkamers alsmede in de particuliere en openbaar ruimtes gebruikt worden. Het is een gemakkelijke mortel die zich niet mengt en katalyseert. Dit produkt biedt nieuwe mogelijkheden aan de bedrijven van de sector. **GEOtexture** is dus gemakkelijk, snel, zeker en ecocompatibel.

SL GeoTexture je prvi monolitni premaz enostavno pripravljen za takojšnjo uporabo na stenah, tleh, opremi kot tudi v kopalnici in ostalih privatnih in javnih prostorih. "Enostavna malta", ki za nanos ne potrebuje katalizatorjev in drugih mešanic. Premaz je pripravljen za uporabo in odpira nove možnosti v "naredi si sam" površinskih premazih za profesionalce (enostaven za uporabo). **GEOtexture** je enostaven, hiter, varen in okolju prijazen premaz.

ES GeoTexture es el primer revestimiento monolítico listo para usar, fácil de utilizar para revestir paredes, suelos, objetos, así como también ambientes de baño en espacios privados y públicos. Un mortero fácil que no requiere mezclas ni catálisis para aplicarlo, un producto listo para usar que abre nuevas posibilidades en el revestimiento de superficies de bricolaje para profesionales del sector. **GeoTexture** es fácil, rápido, seguro y ecocompatible.

ESTETICA

Un rivestimento architettonico dall'effetto compatto, che lega i differenti volumi come una pelle omogenea e continua, ma dalla forte matericità visiva e tattile.

APPEARANCE

It is an architectural covering with a compact look, which flows over different forms like a uniform, continuous skin, but with a strong, substantial visual and tactile appeal.

COMPOSIZIONE

Malta monocomponente pronta all'uso miscelata con leganti acrilici a base acqua e cariche minerali.

COMPOSITION

Ready-to-use single-component mortar mixed with water-based acrylic binders and mineral fillers.
