Cop Console

Designer: Roberto Paoli

In Cop Console, una consolle moderna, il piano agisce come uno "specchio magico", che riflette e trasforma il senso delle cose. L'archetipo del calice, capovolto e ingigantito, definisce il design della base, composta da due importanti piedistalli metallici. A fare da contrasto, il top: un elemento dalla geometria pura che sottolinea la linea di demarcazione con il mondo capovolto immaginato da Roberto Paoli. Questa consolle è proposta con base in metallo verniciato a tinta unita e piano nelle varianti legno, ceramica o marmo.
